DETAILED ACTION

Response to Amendment

1. Claims 1-62 are currently pending in this application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-62 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Number 6,201,810 to Massuda et al..
4. Claims 1-62 are rejected for reasons pointed out in the last office action.

Response to Arguments

5. Applicant's arguments filed 7/28/2005 have been fully considered but they are not persuasive. The applicant generally alleges that the Masuda reference does not teach any of the claimed limitations. However, the Examiner disagrees. The claims appear to be directed towards the broad concept of detecting congestion and rerouting traffic accordingly; a concept which Masuda teaches. For example, Figure 1 of Masuda shows a congestion notification processor. Figure 5 shows a collection unit for collecting and forwarding congestion

information. Figure 6 shows a congestion notification format. Figures 7 and 8 show optimization for routing traffic in a network based on the congestion information.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
